

MATHEMATICS (MATH)

MATH C001N 36 Hours (36 lecture hours)

Mathematics for the Workforce 1

Grading Mode: P/NP/SP Noncredit

Not Transferable.

MATH C001N is for students who seek to improve or refresh their mathematics reasoning and developmental computation skills for the workforce. Topics include study skills, affective domain, operations in arithmetic with whole numbers, fractions, decimal numbers, and conversions among fractions, decimals, and percents. Noncredit. Pass/No Pass/Satisfactory Progress. (NOT DEGREE APPLICABLE.)

MATH C002N 36 Hours (36 lecture hours)

Mathematics for the Workforce 2

Grading Mode: P/NP/SP Noncredit

Not Transferable.

MATH C002N is for students who seek to improve or refresh their mathematics reasoning and developmental computational skills. Topics cover mathematical skills from pre-algebra including ratios and proportions; measurements with U.S. measurement system, and the metric system; understanding variables, and solving equations with one variable. Noncredit. Pass/No Pass/Satisfactory Progress. (NOT DEGREE APPLICABLE.)

MATH C080N 9 Hours (9 lecture hours)

Math Center

Grading Mode: P/NP/SP Noncredit

Not Transferable.

A course designed for students from any referring course throughout the college who seek development and strengthening of mathematical skills. Noncredit. Pass/No Pass/Satisfactory Progress. (NOT DEGREE APPLICABLE.)
