and Performance Objectives to the Employer Performance Objectives Returned by Employer Faculty Review Student Performance Objectives and Supporting Documentation, Assign Grade, and Verify Units of Credit

Method(s) of Instruction

- Lecture (02)
- DE Live Online Lecture (02S)
- DE Online Lecture (02X)
- Work Experience (20)

Instructional Techniques

Work Experience Education (WEE) is a non-traditional delivery system that incorporates work into the curriculum. This program provides a cooperative effort for the college, its staff, the work supervisor, and the student to establish and accomplish learning goals toward the student's career objectives. Learning goals will be created by the student in conjunction with his/her supervisor and WEE instructor.

Reading Assignments

Student will refer to and follow the most current Work Experience Education (WEE) Handbook and related documents. Student may refer to and read company policies, procedures, plans, etc.

Writing Assignments

Working together, the student, instructor, and work supervisor will propose and execute work-specific routine and project assignments that further the student's career goals. These will be related to the student's routine duties, on-the-job problem-solving, company initiatives, personal improvement, and career advancement assignments.

Out-of-class Assignments

Written assignments, projects, and/or skills demonstrations will be defined with the employer, the instructor, and the supervisor.

Demonstration of Critical Thinking

Written assignments, presentations, and skills demonstration related to real-world issues faced by the organization.

Required Writing, Problem Solving, Skills Demonstration

Written assignments, presentations, and skills demonstration related to real-world issues faced by the organization.

Eligible Disciplines

Computer information systems (computer network installation, microcomputer ...): Any bachelor's degree and two years of professional experience, or any associate degree and six years of professional experience. Computer service technology: Any bachelor's degree and two years of professional experience, or any associate degree and six years of professional experience.

Other Resources

1. Work Based Learning Student Handbook Current Edition. Any manuals, reference materials, or job-site documents related to the successful completions of student's job-oriented learning.
2. Coastline Library
