Course Description

Read, analyze, and write on important works of science fiction. Explore the historical, cultural, philosophical, and aesthetic implications of representative works. Formulate and produce written analyses of assigned works. Enrollment Limitation: ENGL A147; students who complete ENGL A147H may not enroll in or receive credit for ENGL A147. ADVISORY: ENGL C1000. Transfer Credit: CSU; UC.

Course Level Student Learning Outcome(s)

1. Write Analytical arguments about science fiction and its influences.

Course Objectives

- 1. Read and demonstrate an understanding of no fewer than 4 long work of Science Fiction literature, supplemented by either more long works or enough shorter works or excerpts of works to constitute an introductory survey course.
- 2. Identify and examine the philosophical, cultural, mythic, religious, and/or historical elements that are represented in science fiction literature or that provide a background context for science fiction literature.
- 3. Learn to read closely in order to recognize and interpret the literary devices and writing styles evident in individual texts of Science Fiction literature. Appreciate how these elements make each work a representation of an individual author's artistic sensibility, of a particular set of circumstances, and/or of a larger group of literature.

- 4. Examine the influence of different gender, economic, cultural, racial, and/or ethnic groups on Science Fiction literature.
- 5. Recognize how individual works of Science Fiction literature reflect and comment on moral, social, and aesthetic issues.
- 6. Write about Science Fiction literature.
- 7. Compare and categorize works of Science Fiction based on major themes, specific movements within the science fiction genre, and larger cultural and historical trends within works of Science Fiction literature.
- 8. Compare and categorize works of science fiction based on major themes, specific movements within the Science Fiction genre, and larger cultural and historical trends within works of Science Fiction literature.

Lecture Content

Introduction to the origin and defining traits of Science Fiction Define Science, Fiction, and Science Fiction. Identify periods of science fiction and the dominant traits of representative works. Early Science Fiction of the 18th and 19th centuries Late industrial Science Fiction The Golden Age of Science Fiction Cyberpunk and Post Modernism Recognize dominant traits of the genre Science Fiction. Classify sub-genres within Science Fiction such as Post-apocalyptic, Time Travel, Cyberpunk, Steam Punk, Hard Sci-fi, and Dystopian. Discuss Science Fiction's relationship to Literature and significant literary movements. Distinguish Science Fiction from Fantasy. Identify Historical and cultural contexts of particular Science Fiction works. Recognize important historical moments-- the industrial revolution, Darwin's theory of evolution, World War I, the atomic-bombing of Hiroshima and Nagasaki, The Cold War, and the computer boom and their influence on science fiction writers Discuss Science Fiction as a form of social critique, as providing commentary on the historical moment to which it is responding. Compare different works from the same historical milieu or works addressing similar social problems or ethical questions. Explain trends and patterns in science fiction across historical periods. Discuss and Evaluate important authors of Science Fiction. Identify the dominant traits of important Science Fiction authors such as H.G. Wells, George Orwell, Robert Heinlein, Isaac Asimov, Clifford Simak, Stanislaw Lem, Frederik Pohl, Ursula LeGuin, Harlan Ellison, William Gibson, Octavia Butler, Samuel Delaney, and Philip K. Dick. Discuss the importance of gender, race, class, and ethnicity to the author's works. Analyze figurative language, literary allusions, and literary tropes employed by the author. Recognize the author's position in the Science Fiction canon and his/her contribution to its evolution as a genre. Analyze and critique various dominant themes of Science Fiction. Identify themes specific to Science Fiction: utopia/dystopia, man versus machine, free will under ever more powerful technology, memory, blurring boundaries between the real and imaginative, other world imperialism, post-apocalyptic survival, communication between worlds and species, erasure of sexual or racial difference, etc. Compare the treatment of a theme across historical periods or authors works. Recognize the difference between themes and topics. Apply Literary theory to works of Science Fiction. Employ at least two different methods of literary analysis. Recognize the strengths and limitations of 2 methods of literary analysis. Identify the influence of criticism on the evolution of science fiction as a genre. Evaluate science fiction as an art form and as a form of social/philosophical inquiry.
