Course Description

A laboratory-based course to improve clothing construction skills. Students work independently according to a study plan they devise and complete, under the supervision of the course instructor. Includes periodic student-teacher conferences, completion of individualized lab assignments, and a final self-assessment report. Enrollment is open all semester. NOT DEGREE APPLICABLE. Not Transferable.

Course Level Student Learning Outcome(s)

1. Formulate learning objectives for independent projects and practice self-assessment as it relates to techniques in apparel production.

Course Objectives

- 1. Formulate learning objectives.
- 2. Practice self-assessment and basic skills abilities in clothing construction.
- 3. Complete a minimal number of required exercises, assignments, self-evaluation charts, and final progress report.
- 4. Demonstrate techniques as they relate to apparel construction.
- 5. Use appropriate learning resources such as handbooks, pattern books, lab manuals, technique notebooks, computer programs, and student-teacher conferences.
- 6. Identify needed tools and equipment.
- 7. Safely operate the sewing machine and an industrial serger.

Lecture Content

Course orientation and needs self-assessment Academic and personal/work schedule Academic history Skills self-assessment/needs inventory Academic study/learning goals Student-instructor conferences Review of progress to date Agreement on learning tasks Lab equipment and overview Thread machine and bobbin Identify pressing equipment Determine supplies, small equipment, and tools needed Operate machine Demonstrate various stitches Use machine attachments Increase speed to perform tasks Individual clothing exercises and assignments Clothing construction practice assignments Oral practice presentations On-going completion of self-evaluation summary (from lab booklet) Progress report (lab booklet)
