Course Description

This is "The Rep," a student-run theatre company. Students will collaborate under faculty supervision to plan and produce several plays. First semester students will choose two or more areas of play production in which to take part. Play production aspects include backstage duties such as technical production, crew, or stage management, acting in student-directed plays, or management duties such as planning, publicity and ushering. This course gives students hands-on experience which extends and enriches experience beyond previous beginning acting and technical courses. Transfer Credit: CSU.

Course Level Student Learning Outcome(s)

1. Collaborate with students and faculty to produce and perform a series of stage plays.

Course Objectives

- 1. Work collaboratively with others.
- 2. Demonstrate a basic level of understanding of the organizational and production elements required to produce a stage play.
- 3. Complete tasks as part of a play production team. These may include acting in a play, assistant directing a play, technical work on scenery, lights, costume, props or sound, stage management, house management or publicity
- 4. Meet time demands on assigned production tasks.
