

# ADVANCED PLACEMENT (AP)

Orange Coast College grants academic credit towards an Associate Degree or Certificate for successful completion of examinations of the Advanced Placement Program of the College Entrance Examination Board with a minimum score of 3 unless otherwise indicated.

Course credit or General Education area credits granted for Advanced Placement Examinations can be used to meet OCC general education requirements for an A.A. and/or A.S. degree under General Education Options 1, 2, or 3.

Course credit earned through Advanced Placement Examination can be used to certify general education requirements for transfer to UC under Option 3 (Intersegmental General Education Transfer Curriculum). AP credit can be used to certify general education for transfer to CSU under Option 2 (CSU General Education Breadth) or Option 3 (IGETC). Students certified using Option 3 can satisfy only one course requirement per exam on the IGETC.

Posting of Advanced Placement credit on the OCC transcript does not guarantee transfer to other colleges. The respective college or university determines eligibility for AP units, according to its policies. AP scores must be submitted for evaluation to the college or university where the student requests credit. Students planning to transfer should consult the catalog of the transfer institution to determine how AP credit is granted at that school.

Students may request AP credit through Enrollment Services on the first floor of Watson Hall. Submission of official exam results is required prior to any evaluation and posting of credit.

The AP Chart is based on the most current information available. Although every attempt has been made to ensure the accuracy of the information provided, make sure to use the following links to verify the information.

**Many colleges or universities may apply AP test credit toward satisfaction of subject or specific requirements (e.g., major). AP policies vary by institution. Students should see a counselor to discuss how AP is applied based on the transfer institution's application of AP major credit.**

**OCC Associate Degrees** – Students should be aware that AP test credit is evaluated by corresponding it to an equivalent OCC course (e.g. History A170). A student who receives AP Credit and then takes the equivalent OCC course will have the unit credit for such duplication deducted prior to being awarded the A.A. or A.S. degree. Credit by Advanced Placement exam is noted and listed first on a student's transcript, with units assigned and no grade. Course credit and units granted to the OCC Associate Degree may differ from course credit and units granted by a transfer institution. For more information, please see a counselor.

**CSU GE** – The Advanced Placement examinations may be incorporated into the certification of California State University General Education-Breadth requirements by any certifying institution. All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated General Education-Breadth area if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than those specified toward completion of General Education-Breadth requirements.

**IGETC** – AP Exams must be used in an area indicated regardless of where the certifying California Community College's discipline is located. Many colleges or universities may apply AP credit toward satisfaction of subject or specific requirements (e.g. major). AP policies vary by institution. For policy information regarding individual institutions, visit [apstudent.collegeboard.org/creditandplacement](http://apstudent.collegeboard.org/creditandplacement)
