

THE CHILDREN'S CENTER

The Harry and Grace Steele Children's Center is part of the OCC Student Services department. The Children's Center was founded by the Associated Students of Orange Coast College (ASOCC), whose mission is to provide a quality, comprehensive child development program. The Center provides childcare services to OCC student-parents and if space is available, childcare services for faculty/staff. The Children's Center serves children 2 to 5 years of age and accepts subsidized parent fees for childcare through California Alternative Payment Programs such as Orange County California Department of Education, and Children's Home Society. Students who have access to CalWORKs can find support through our OCC campus CalWORKs department. Full Cost openings are also available.

The Children's Center website lists hours of operation, fees and waiting list information. The Children's Center is located on Merrimac Way on the west side of the OCC campus, parking lot D.
